

Activity Sheet 11

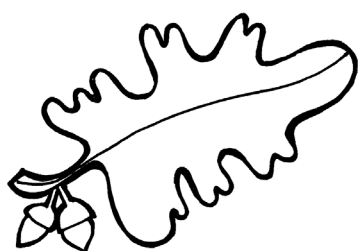

**What Season are you in?**

Read through these lists for spring, summer, autumn and winter to decide which season you are in:

SPRING	SUMMER	AUTUMN	WINTER
Bird Song	Birds with young	Birds flocking	Frost & Ice
Nest Building	Flies	Fungi	Bare trees
Blossom on trees	Butterflies	Fruit & nuts on trees & shrubs	Brown grass
Sun high in the sky	Dragonflies	Days shorten	Dead leaves
Leaves sprouting	Long grass	Leaves changing colour and falling	Rusty coloured bracken
Frog spawn	Flowers in bloom	Dampness in the air	Sun low in the sky
Catkins	Trees in full leaf		Fewer insects
	Long days		Short days

The season is.....

**OTHER ACTIVITIES**

**Fungi-** look out for fungi in autumn and winter. Remember that some are deadly poisonous, so do not touch!  
**Fungi-** spores are all around us- if you leave a slice of fruit in a warm place you can then observe the mould that begins to grow every day.  
**Nature book** - make a book out of different coloured card. Bind it with wool or string. Children can stick leaves and feathers in the book to describe their visit.
