Details of Discount for Works on Traffic-Sensitive streets wholly outside Traffic-Sensitive times

North Lincolnshire Council offers a 30% discount for works in traffic-sensitive streets where those works take place wholly outside traffic-sensitive times, in accordance with Amendment regulation 12 (b) which amends regulation 30.

North Lincolnshire Council

Performance Indicators

In addition to any required National Performance Indicators

Parity of treatment for all activity promoters particularly between statutory undertakers and the Authority works and activities as required by Regulation 40, will be demonstrated through North Lincolnshire Performance Indicators and detailed as follows:

LPI 1: The number of approved extensions.

It will be expressed as:

- The total number of permit issued
- The number of requests for extensions shown as a percentage of permits issued
- The number of agreed extensions as a percentage of extensions applied for

LPI 2: The number of PAA and permit applications cancelled It will be expressed as

- The number cancelled as a percentage of the total of each

LPI1 and LPI2 will help to show the effectiveness of the promoter in planning works correctly.

LPI 3: The number of remedial reinstatements measured by Promoter It will be expressed as

- The number of permits granted where the phase type is remedial

This will indicate the level of non-compliance with specifications and quality of workmanship (defects)

LPI 4: The number of FPN's that have been issued, identified by works promoter. It will be expressed by

- The number of FPN's issued
