This is a perfect book for helping to develop your toddler's early vocabulary. For older children, linking words to pictures is also an important first reading skill.

What's That? At Home contains clear, bright pictures and words of everyday home objects to look at and talk about, perfect for young children curious about the world around them.

## What's That? At Home Fun things to do!

**What's in the bag?** Take a pillowcase and fill it with household objects. Your child will love the surprise of what you pull out and name. Watch this clip from Tiny Happy People to learn how to play the game:

### Picture Playtime

Including pictures in playtime will help your baby to start connecting words and objects. Using your picture book is a good starting point for this activity. Try repeating key words and then pointing out those objects when you see them in the book and around the house. **Go on a sound walk with your baby.** Listen out for noises such as the washing machine, or a clock ticking. Find the sound and make the noise. Did you know that helping your child tune in to everyday sounds helps them later in life when learning different letter sounds?

**Making ten minutes a day to share books with your child will make a huge difference to their development**
