

STANLEY'S COLOURS

by William Bee

Stanley and Little Woo are learning about colours. Join them as they look at vehicles in all the colours of the rainbow.

Everyday Sounds

Make the sounds of the vehicles as you read. Point out and name vehicles when you go out and about. All these things will help your child's language development

Colour Scavenger Hunt

Your little one will experience lots of colours in their daily lives. Starting with your child's favourite colour, (if they have one) why not go on a

hunt and collect items of the same colour?

You could then match them into containers of the same colour naming them as you sort them.

Colour Finger Painting

Finger painting can be started a lot younger than you may think. Even little babies can join in this fun experience and it makes a great tummy time activity too! It is going to be messy! However, these 'messy moments' provide important sensory experiences for muscle and brain growth.

Please remember to use non-toxic paint; or you could make your own, using food colouring, water and cornflour.

I Can Sing a Rainbow

**Red and yellow and pink and green,
purple and orange and blue.**

**I can sing a rainbow,
sing a rainbow,
sing a rainbow too.**

**Listen with your eyes,
listen with your ears,
and sing everything you see!
I can sing a rainbow,
sing a rainbow,
sing along with me.**
