

BABY TOUCH - NIGHT NIGHT

by Ladybird

Babies and toddlers will love this interactive touch-and-feel bedtime story.

Time for bed, sleepy baby! Say 'night-night' to all the animals, plants and vehicles. Colours fade from light to dark throughout the book, until it's night-time and time for baby to go to bed.

This is the perfect way to sooth your baby before bedtime.

Join in with your child's pretend play

Together you could put your child's teddy to bed using some of the words from the book. Joining in with your child's play allows them to hear new words, and hear the correct pronunciation of words.

Encourage your child to join in with words of the book!

Maybe your child would join in with the words "**night-night**" as you say them, or wave at the pages of the book as you say "**night-night**". Try waiting to see if your child could say the next words that are repeated on each page. You could say "**time for bed**".... and see if they could finish the phrase "**sleepy head.**"

Bedtime Routines

Having a bedtime routine where you share a story together can help your child calm down and relax. Reading each night improves your child's language, grows their imagination, and is a chance to enjoy lots of cuddles.

Twinkle Twinkle Little Star

*Twinkle twinkle little star,
how I wonder what you are.
Up above the world so high.
Like a diamond in the sky.
Twinkle twinkle little star,
how I wonder what you are.*
