

BABY TOUCH FACES

by Ladybird

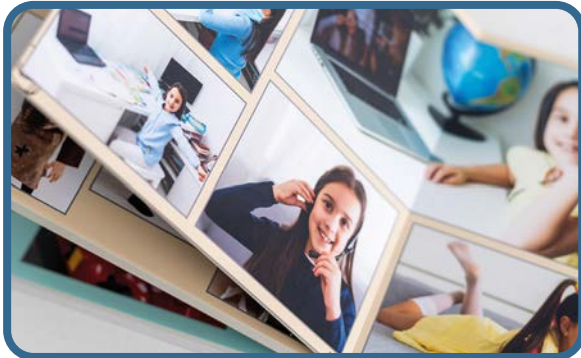

Babies love looking at faces. Faces will fascinate your baby and help them to bond with those around them.

Cuddle up close with this book and allow plenty of time for your baby to look at each picture.

Create your own family photo book.

This is a great way to introduce your baby to some familiar faces and talk to them about their family.

Your baby is trying to communicate with you from the moment they are born.

They will use sounds, facial expressions and movement to tell you what they need and how they feel.

Eyes, Nose, Cheeky, Cheeky, Chin

*Eyes, nose, cheeky, cheeky, chin,
cheeky, cheeky, chin, nose, eyes.
Eyes, nose, cheeky, cheeky, chin,
cheeky, cheeky, chin, nose, eye.*

While saying the rhyme touch your eyes, nose, cheeks and chin so that your baby can see these on your face.
